

簡単・シンプル・高性能 直流アーク溶接機

Easy, simple, and high functionality
DC Arc Welding Machines

轻松、简单、高性能
直流弧焊机

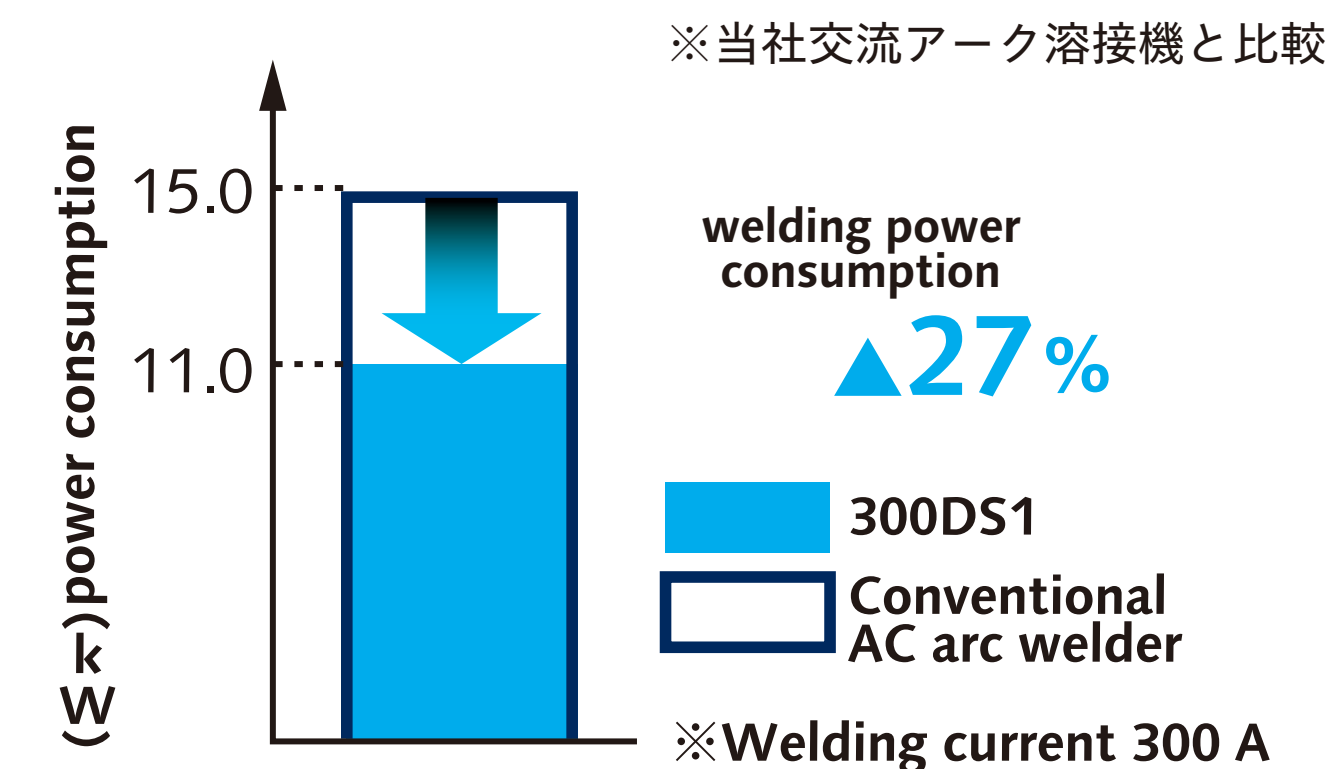

YD-300DS1

YD-500DS1

溶接中も待機中も節電
(電気料金 ▲1.5 万円・CO₂ ▲0.41 t)

待機時の感電リスクを低減

軽量化と堅牢な構造

電撃防止機能と電防点検機能を搭載

交流機と比較し軽量
省スペースで堅牢な段積み構造

Reduction of electric shock risks
during standby

Equipped with a voltage reducing function and an electric shock prevention inspection function

Weight reduction and robust structure

Lightweight compared with AC machines
Space-saving and robust stacking structure

Save energy both during welding
and standby

(Electricity charge: -15,000 yen, CO₂: - 0.41 t)

焊接中と待機中都能节电
(电费 -1.5 万日元 · CO₂ - 0.41 t)

减少待机时的触电风险

配备防电击功能和防电检查功能

轻量化和牢固结构

与交流机相比，具有轻量、节省空间、牢固的层叠结构
